

## ANTI-SLIP UNDERLAY

Odorless anti-slip underlay made of a thick, thin and white mesh.

**Easy to cut and place**, it is washable up to 60 ° and facilitates the vacuuming of knotted or handwoven carpets. Strongly recommended for underfloor heating. Recyclable.

With its presence it protects carpets from wear reducing friction with the floor.

It is perfect on smooth surfaces such as ceramics, marble, untreated wood, etc., and particularly suitable for thin carpets and runners.

Placed below the carpet, not only creates a comfortable extra layer for walking and makes the carpet more soft, but also avoids sliding and domestic accidents.

### TECHNICAL DETAILS

**Processing technique and composition:** PES / woven glass wire coated on both sides with a special PVC-based preparation.

**Pile high:** 1,0 mm

**Weight:** 270 g/sqm

**Max Width:** 1,6 e 1,8 m

**Max Length:** 30 m

**Backing:** PES + PVC

**Standard finishing:** Unfinished edge

### SIZES

Standard finishing included

90 x 180 cm

120 x 180 cm

160 x 230 cm

180 x 240 cm

180 x 280 cm

### PERSONALIZATION

**Cut from roll (H. 1,6 e 1,8 m)** - Unfinished edge

**Custom size available** in 1 week
